

**I would like to submit a bill. That is because I think that it will make a better county to live in. My bill is to have sidewalks on all public roads and trails.**

**These are my details. On the trails because people can't get hit by a bike. Now runners and or walkers don't trip and fall.**

**These are my details for public roads. So when you want to go for walk you don't have to walk on other people's lawns. Also you don't have cars close to you when you go for a walk. That will also cut down the percentage of people getting hit by cars.**

**Thank you for your time. I hope you liked my bill and I hope my bill gets turned into a law. Remember my bill might save lives.**

**Shaun**
